ZEPTOMETRIX®

ZeptoMetrix® provides a comprehensive offering of disease state panels for multiple purposes including validation/verification, quality control, and new kit/survey development. Each of our seroconversion panels contain characterized samples with analytical data, provided for comparative analyses Go to zeptometrix.com for complete offering.

- Over 160 different panels for HIV, HBV, HCV, and Zika
- Single-patient specimens serially collected through disease progression
- Characterized samples with analytical data are provided for comparative analyses
- Early detection of antigens and antibodies
- Unadulterated 4% sodium citrated plasma
- No preservatives added
- Ready to use
